

The continued growth and evolution of Trisoft Graphics in process and implementation is bringing us new services to provide our clients and their clients with extraordinary tools for communication, job management and online proofing. Current tools and processes such as email, ftp, fax and hard proofs will continue to be employed, however, we believe that Trisoft's WebCenter is the next generation of tools that replace the manual and cumbersome methods of the old.

Our goal is simple: continue to improve service to our clients by offering them ever more effective and efficient tools as we continue to improve our own processes and procedures to eliminate waste and minimize errors.

Growth and change are never easy but they are inevitable and Trisoft has always been at the forefront of technological and operational advancement.

With Esko's WebCenter, we can invite our clients remotely into our workflow, allowing them to have more control and connection with the projects we work on for them. Our staff is standing by to help you incorporate these tools into your own unique workflows.

Training and support are all part of the service we offer and the value we bring to our client relationships.

We look forward to serving you and continuing to provide you with the latest technology.

Log-In Page

webcenter.trisoftco.com

You can log in to WebCenter from anywhere with your unique username and password.

Your username and password will be provided to you by our Trisoft Tech Team.

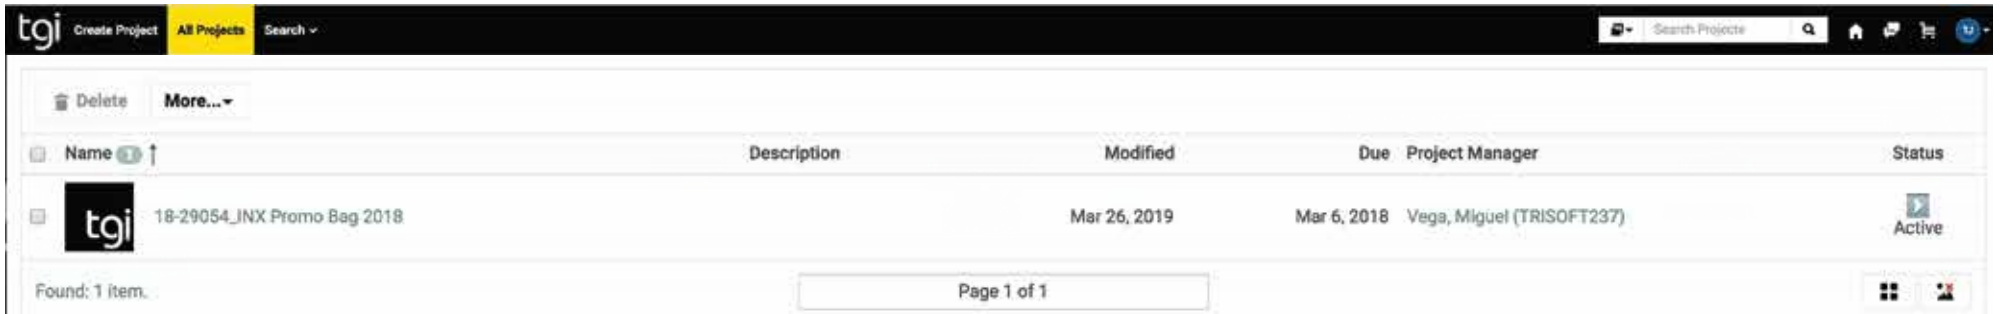

If ever you forget your username/password, clicking on "Forgot Password?" will guide you through the process of requesting a new password.

A screenshot of a login form. It features a 'Username' label above a text input field containing the placeholder 'Enter Username'. Below that is a 'Password' label above another text input field containing the placeholder 'Enter Password'. A dark grey button with the text 'Log In' is positioned below the password field. At the bottom left of the form area, there is a link that says 'Forgot Password?'.

A dialog box titled 'Forgot password? Please specify your'. It contains two input fields: 'Username:' and 'E-Mail:'. Below the 'E-Mail:' field, there are two buttons: 'Close' and 'Request New Password'. At the bottom, there is a small blue icon followed by the text: 'By requesting a new password, a temporary password will be sent to your e-mail address. This password will allow you to set a new password after login.'

Once logged in, you will see all your projects that are currently live, or waiting for approvals or rejections. Clicking on any of your project names will open up the project window.

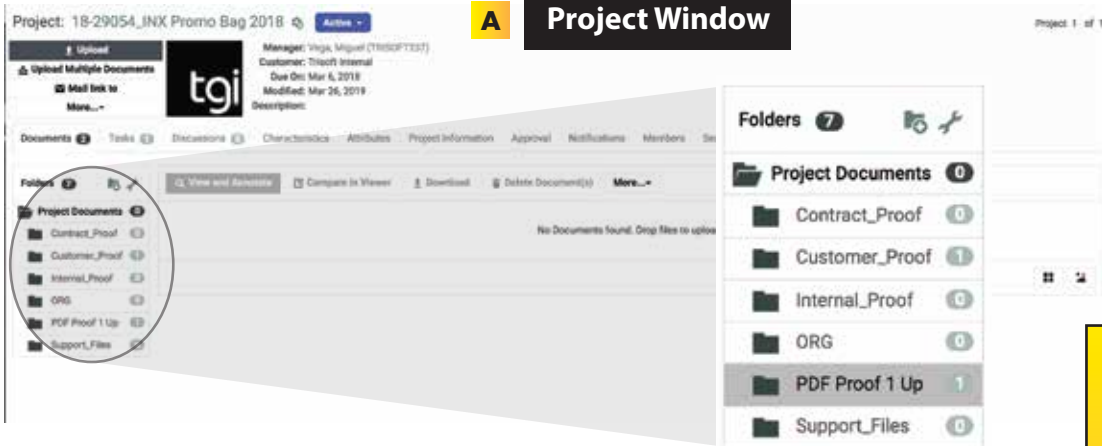

A Project Window

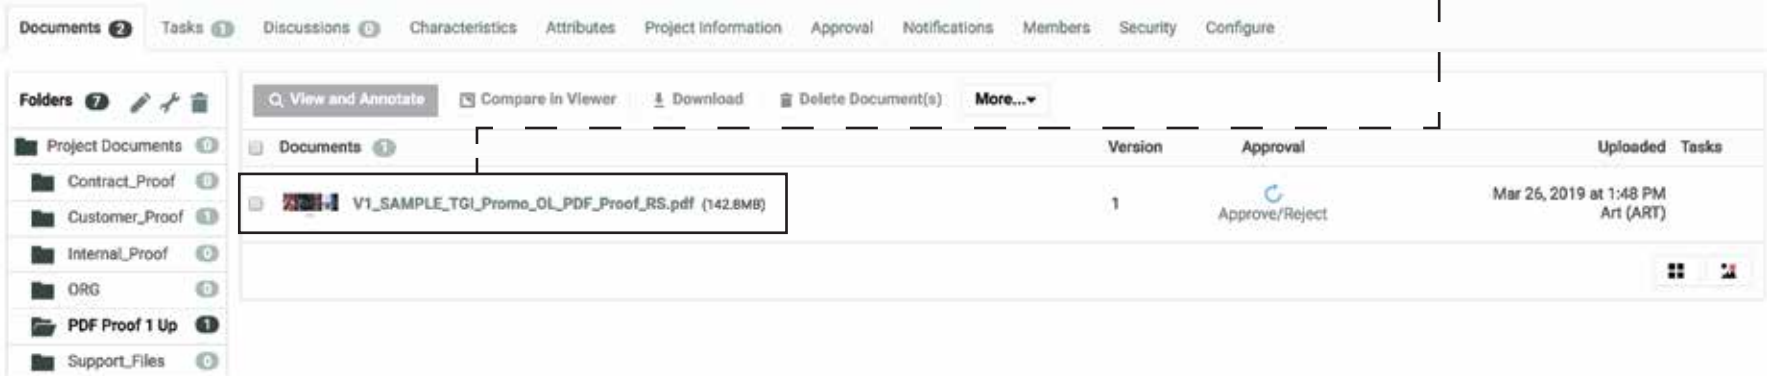

A In your project window, you will see all proof's available for you to view. From 1 up proofs to finalized layout proofs.

B

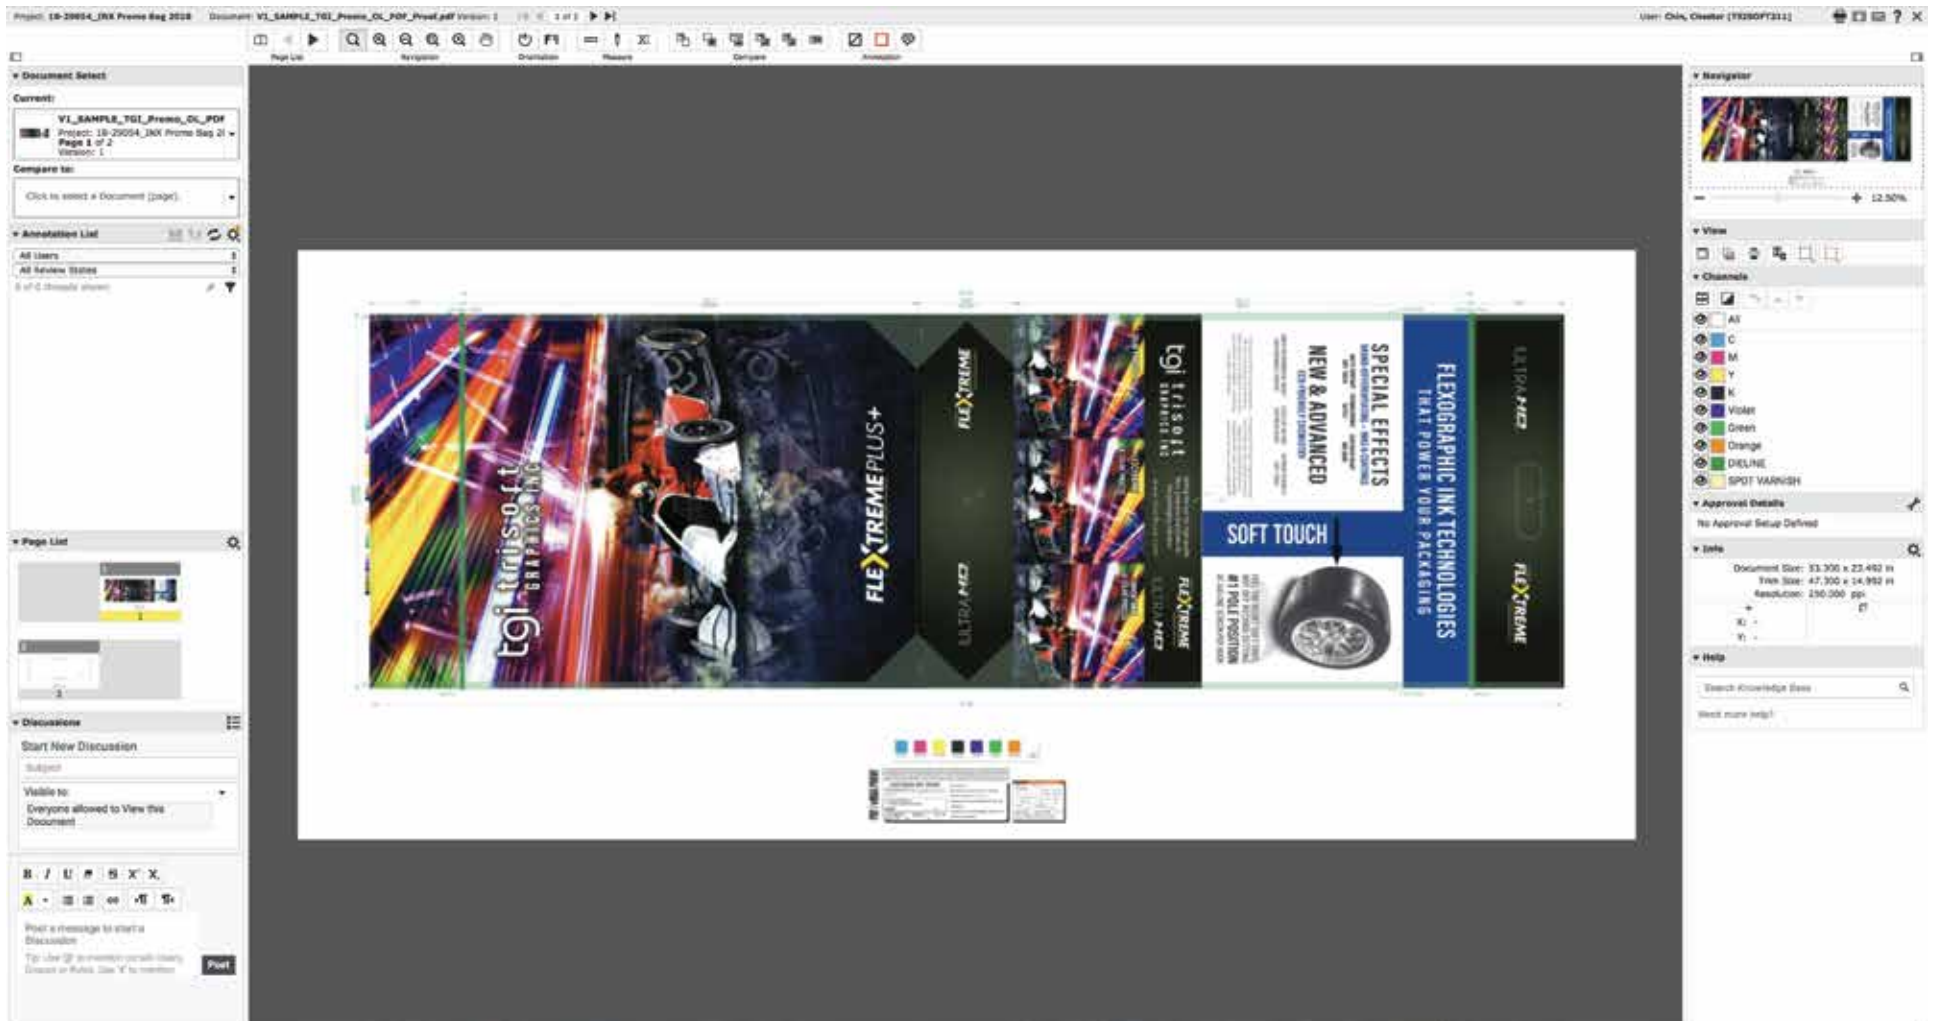

B In the "Folders" tab, you will find your proofs that will need reviewing.

Navigate to the folder with your proof in it and click on the documents name to open the document in Trisoft's Web Connect Viewer.

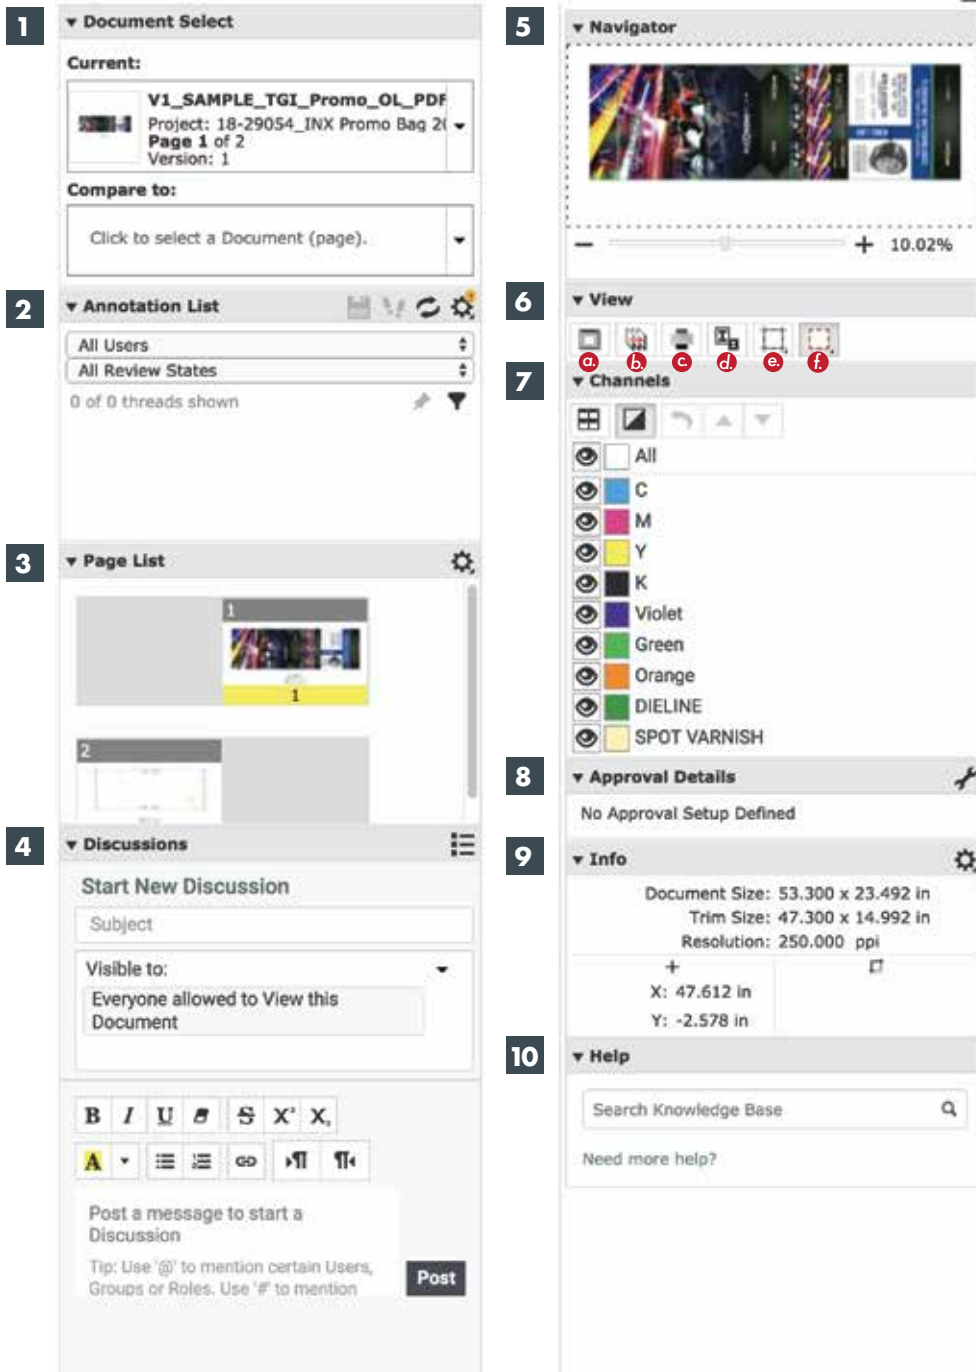

Trisoft Web Connect - Viewer App

This is where you will be able to view your proofs and analyze and proof read every part of the job. You will have the ability to view individual colors, view percentages of colors, add notations for changes and so many other options.

Web Connect - Viewer App

1 Document Select

If your file has multiple pages, you can choose which file to view/edit in this window.
